HHD70

The diagram illustrates the electrical connection between the CC1190 and CC1101 modules. The CC1190 module is shown with its internal components and external connections. Key connections include:

- PA_OUT** and **PA_IN** pins connected to the **SAW** filter.
- LNA_OUT** and **LNA_IN** pins connected to the **SAW** filter.
- TR_SW** pin connected to a switch and a capacitor.
- PA_EN**, **LNA_EN**, and **HGM** pins connected to the **CC1101** module.
- GND** pin connected to ground.
- RF_P** and **RF_N** pins connected to the **CC1101** module.
- GDOx** pin connected to the **CC1101** module.
