SERIES OF ITU-T RECOMMENDATIONS	
Series A	Organization of the work of ITU-T
Series B	Study of the technical and organizational requirements for international telecommunications (B) currently under study
Series C	Study of the technical, regulatory, legislative, service and economic issues
Series D	Study of the technical, regulatory, legislative, service and economic issues
Series E	Transmission systems and media, digital systems and networks
Series F	Administrative and maintenance systems
Series G	Telecommunications digital systems
Series H	Cable systems and maintenance of telecommunication, sound programming and other multimedia
Series I	Publicizing information systems
Series K	Environment and IT, climate change, a secure, energy efficiency, communication, mobile and multimedia services, information security and security of services
Series M	Telecommunications management, including ITU-T and national maintenance
Series N	Maintenance - internationalized programs and software maintenance (currently in preparation)
Series P	Telecommunications transmission systems, transmission, fixed and wireless
Series Q	Networking and signaling, and associated maintenance and networks
Series R	Telecommunications network architecture
Series S	Telegraph system technical equipment
Series T	Telecommunications services
Series U	Telegraph system
Series V	Telecommunications and the telephone network
Series W	Data networks, open systems interconnection and security
Series Y	Digital telecommunications administration. Between network of users, open network architecture, telecommunication and other services
Series Z	Language and general advice for telecommunications systems
