WINMOR

WINMOR

- Ein neues Soundkarten TNC im Betatest

The screenshot shows the 'WINMOR Sound Card TNC' application window. It features several control panels and visual displays:

- Connection State:** A green bar indicates 'IRS' is connected to 'OE3ZK-3 @ 500 Hz'.
- Transmit:** The 'Xmt Frame' field shows 'ACK: 01C0'. Below it, 'Outbound bytes queued' is 0 and 'Sent bytes confirmed' is 61.
- Receive:** Includes a 'Rcv Level' bar, a 'Busy Detector' checkbox, and a 'Remote Station Offset' of 1.2 Hz.
- Statistics:** 'Queued' is 0 and 'Sequenced' is 4796.
- Visuals:** A 'Waterfall 2 KHz' spectrum plot at the bottom center and a '16PSK Score: 71' constellation diagram on the right.
- Buttons:** 'HELP' and 'Hide' buttons are located at the bottom right.
