WINMOR

WINMOR

- Ein neues Soundkarten TNC im Betatest

The screenshot shows the 'WINMOR Sound Card TNC' application window. It features several control panels and visual displays:

- Connection State:** A green bar indicates 'IRS' is connected. Below it, the text reads 'Connected to: OE3ZK-3 @ 500 Hz'.
- Transmit:** A section for sending data, currently showing 'Xmt Frame: ACK: 01C0'.
- Receive:** A section for receiving data, including a 'Rcv Level' bar, a 'Busy Detector' checkbox, and a 'Remote Station Offset' of 1,2 Hz.
- Statistics:** 'Queued: 0' and 'Sequenced: 4796' are displayed.
- Visuals:** A 'Waterfall 2 KHz' spectrum plot at the bottom center and a '16PSK Score: 71' constellation diagram on the right.
- Buttons:** 'HELP' and 'Hide' buttons are located at the bottom right.
